This case, which has excited so much interest amongst both Chinese and foreigners, was brought to a somewhat singular conclusion before Mr Goodlake this morning. Lum Afook, Fong Achee, and Lo Alee were the three principal witnesses in addition to English literature, and as preme Court last week; and upon the conviction of the three men last referred , to, the above-named witnesses were apprehended and charged with cutting and wounding with intent, and also with having committed wilful and corrupt perjury during the trial (at which they gave evidence) evidence it affords of that confidence two companions in affliction at the Magistracy two or three days ago, Mr Goodlake agreed, upon the application of Mr Whyte took place, and in which the prisoners are employed. THE FRENCH MINISTER OF WAR.-Awriter in the Etendard tells the following interesting episode in the life of a captain of Engineers in the French army :- "One blazing hot day in 1837 the French troops were attacking Constantina at certain points indicated by General Kohault de Fleury. The place was found to be much stronger than was believed, and efforts were redoubled, but they seemed to be in vain. The General anxiously followed the movements with his glass, when he saw a company of Sappers advancing, led by its captain, to another point, which his military knowledge had, in the midst of the action, revealed to him as the vulnerable spot. The attack there proved successful, and decided the fortunes of the day. The General sent next day for the officer, and said to him. "Captain, it was you who yesterday took of Chef de Bataillon for you." But the officer replied, "General, I am the youngest of my grade in the corps, and that promotion might give pain to some worthy men who are my seniors. I have not the cross: your kindness encourages me to avow that I should prefer the riband to the epaulette." 'No matter," answered the General, somewhat brusquely; "the cross you will have sooner or later. What we want is good apperior officers." At the present moment the captain in question is called Marshal Neil, Minister of War.

VERY ALARMING.—We read in the New York Times:-" Apropos of the recent meteoric showers and the explosions of steam boilers in every part of the country, Professor Loomis suggests a very uncomfortable theory in regard to the safety of the earth itself. He thinks it not impossible that sufficient steam might be generated in the burning centre of the world to blow the whole of the globe to pieces. A volcanio eruption under the sea, or near it, like at any moment convert the earth into a huge steam boiler, by letting the water in upon the central fires, to be followed, for aught we know, by an explosion that shall rend it apart, and send the fragments careering through space as small planets or meteors, each bearing off some distracted members of the human family, to make, perchance, new discoveries and new acquaintance in other parts of the planetary aystem now revolving with us. final catastrophe may, after all, be only a boiler explosion on a magnificent scale of grandeur and destruction.

HOLLOWAYS PILLS & CINTMENT. HOLLOWAY'S PILLS. TIHIS Medicine is universally admitted

to be the most efficacious remedy known to the world. No preparation is so suitable to the climates of India and China as this line and invigorating medicine. is particularly adapted to the constitution of European ladies, as it is never failing in its effects in all diseases peculiar to females, while those who are attenuated by the debilitating effects of the above climates will find in this wonderful remedy a kind of talisman whereby they may insure a restoration to robust health.

HOLLOWAY'S OINTMENT. The science of Medicine has never before produced any remedy that can be compared to this wonderful Ointment, as it cures after all other means have failed, all wounds, sores, ulcers, and also the most inveterate skin diseases peculiar to the climates of India and China. It is the true friend of the Soldier and Civilian, as certain old sores can be removed by it that cannot be conquered by any other treat-
